Poetry.

An Epigram from the French.

BY JOHN G. SAXE.

"Now tell me, my friend," said the Duchess of Maine,
To a witty gallant at a party, one night,
What the difference may be—I prithee explain—
Between me and the clock that is ticking in sight?"

"Just this," he replied, "that the clock by its face
Is made to remind us, by night and by day,
Of the march of the *Hours;* while, as to your Grace,
You make us *forget* they are passing away!"

Miscellaneous.

[From the Richmond, Va., Dispatch.]

The Centenial Exhibition.

In your editorial leader of the 7th instant, under the caption "Philadelphia shows her blood," you treat "of the proceedings of a meetings of the Radical Club (not a Republican) of that city," and make of it an occasion to speak in uncomplimentary terms of the proposed Centenial Exhibition, and consequently of the Centenial Commission. I am a member of the Commission, and I have a right to be heard in reply.

The *Press*, of Philadelphia, must and doubtless will take care of her reputation. I certainly have no defense to make for any "Radical Club (not Republican)," or people, whether in Philadelphia or elsewhere. I believe, though that the club whose proceedings you, quote is composed of negroes. Certain it is, however, that the United States Commission will never recognize any race inhabiting this country, *as a race,* and invite them to appreciate the great Exhibition of 1876, and it recognizes nothing less than States and Territories. Under the act of Congress creating the Commission, not even the great vities can demand or be accorded space in the buildings or proceedings. They must come in, if at all, under the flag of the State in which they are situated, and under the direction and control of the State Commissioner, who in turn is directed and controled by the National Commission.

The United States Contennial Commission was organized a little more than a year ago under and by authority of an act of Congress, approved March 3, 1871, and entitled "an act to provide for celebrating the one hundredth anniversary of American Independence by holding an International Exhibition of art, manufactures, and products of the soil and mine, in the city of Philadelphia, and State of Pennsylvania, in the year eighteen hundred and seventy-six." The first section of the act I quote entire—viz., "That an exhibition of American and foreign arts, products, and manufactures shall be held, *under the auspices of the Government of the United States,* in the city of Philadelphia, in the year eighteen hundred and seventy-six." The second, third, and fourth sections provide for the appointment of one commissioner and one alternate commissioner from each State and Territory "by the President of the United States on the nomination of the Governors of the States and Territories respectively," thus composing a "commission truly national, "whose functions shall continue until the close of the exhibition."

You say that the city of Philadelphia "is now trying so hard to humbug the whole world into spending a million or two of dollars within its limits in the year 1876 as spectators and participants in a grand National Centennial Celebration of the adoption of the Declaration of Independence." The extracts from the act herein quoted conclusively show that the city of Philadelphia has, and can have, nothing to do with the Centennial Exhibition, save that the great buildings to contain the articles exhibited will be located in her beautiful park, four hundred and fifty acres of which she has generously tendered for the purpose. It is true that Philadelphia hotel, store, and shopkeepers generally will doubtlessly reap more pecuniary reward from the exhibition than any other people, but that is an incident inseparable from the place of the gathering together of any large number of people. As well might the people of Virginia have refused to attend the late annual State Fair at Richmond, and with fully as much propriety could you have assailed the Great Baptist Memorial Celebration which was recently held there. Richmond shop, hotel, and storekeepers doubtless picked up many a dollar from the visitors to each, and Richmond is a city having in proportion to her population fully as many *Radical* and Republican clubs and people, both white and black, (if the Richmond Conservative papers tell the truth, which I do not doubt,) in favor of social equality as has Philadelphia, or any other city on this continent, with, possibly, the exception of the chief city of South Carolina.

But why do you say that the city of Philadelphia is trying to humbug the people of the whole world into spending a million or two of dollars there, &c.? Why use the term "humbug" at all? which, to say the least of it, is not a refined one. Did Richmond humbug the people of Virginia into speading a large sum of money there at the last State Fair? Did she humbug the visitors too, and participants in the great Baptist Memorial Celebration? It seems to me that in either celebration it would have been grossly wrong and unjust for any paper to have assailed the one or the other because of the location. If there was any humbugging at all it was done by the getters-up of the respective celebrations, and the organizations they belonged to should bear the blame, if any. And so in the case of the great Centennial Exhibition—if there is any humbugging in the matter it has been done not by Philadelphia, but by the United States Centennial Commission, with whose every act no paper in Virginia of sufficient importance to have an exchange list has any excuse for being unfamilliar. The Commission is ameniable to criticism.

Since its organization, the United States Centennial Commission has, without one dollar of compensation, performed almost herculean labors. It has raised more than $3,000,000, only two-hundred of which is subscribed by Virginians; one hundred of the two by John S. Barbour, Esq., and the other hundred by General H. H. Hunt, of Halifax county. It is now proceeding to obtain further subscriptions, the minimum estimate of cost at the exhibition being $10,000,000. It has commenced the preparation of the beautiful site, so generously donated by the city of Philadelphia; it has offered large premiums for plans of Exhibition buildings, open to the competition of all the architects of the world, and on the 15th, of the ensueing month the plans will all be in the office of the Commission at Philadelphia. It has its agents abroad, at Vienna and elsewhere, and throughout the United States, soliciting articles for exhibition. It has under anxious discussion a plan, rapidly maturing, for bringing to the exhibition all that is worth seeing in India, China, Japan, Persia, and Roumiania. The storehouse of the fabulous East will be laid under contribution, and emptied of whatever can add to the attractiveness of the great West. It will soon become the duty of the President of the United States to issue his proclamation, through the Department of State, announcing that "provision has been made for the erection of suitable buildings and for the *exclusive* controle by the Commission" of the exhibition. The same proclamation will set forth "the time of the opening of the exhibition and the place where it will be held."

"And he shall furnish to the diplomatic representatives of all nations copies of the same, together with such regulations as may be adopted by the Commissioner for publication in their respective countries."

To my mind, the apparently persistent and studied effort of most of the leading newspapers of Virginia to throw odium upon the proposed exhibition, and thereby damage Virginia to the extent that she would certainly gain by participation in it, is, indeed, incomprehensible. Every issue of the same paper containing fierce assaults upon the *National* exhibition will generally contain an editorial or a local article sometimes full of most cogent and convincing reasons in favor of some county or State Fair. That worthy son, W. H. F. Lee, president of the State Agricultural Society, is now actively canvassing the whole State in behalf of the approaching fair at Richmond. Richmond, under the lash of her newspapers, which fails to command unqualified approval, only because it is not more vigorously applied, has now her "committee of thirty-four" (I believe) actively button holing her business men for money wherewith to pay premiums, and otherwise insure a grand State Fair next Fall.

The London exhibitons of 1851 and 1862 are quoted as the crowning acts of the great and useful life of Prince Albert. The great exhibition at Paris in 1867 is regarded as the chief benefit conferred by the late Napoleon upon the country whose material wealth and resources he developed to an extent sufficient to pay, without bankruptcy and in advance of the stipulated time, an indemnity greater than any nation, in modern times at least, ever had to pay. The Empire of Austria is congratulated upon the great exhibition now being successfully held at Vienna. State or county fairs, industrial expositions, international exhibitions, are everywhere hailed by the press as incontestible evidence that the country, State or county, in which it is held as vitality, energy, and is evincing progress in the cultivation of the arts and industries which benefit is population. But when the United States—a Government not yet a century old, professing, and justly professing, to have more vim and energy, broader and better civilization, freer institutions, and *more to exhibit* than any other nation under the sun—propose to have an exhibition not only commemorative of her wonderful birth and growth but far eclipsing any exhibition ever held before, the press of Virginia "whistles it down the wind," and prevents participation in it by calling it a Philadelphia "humbug."

I trespass father upon your courtesy to correct an erroneous impression existing among *un*informed and *mis*informed people, that all the time, money, and labor expended and to be expended, about the Centennial Exhibition is for the idle purpose of "making an American holiday"—a mere celebration of the 4th of July. Were such its aim and scope I would wash my hands of it now. That would indeed be a "humbug" worthy of your denunciation. But so far from that being the case, the Exhibition will be open for the reception of visitors on the 19th of April, the anniversary of the battle of Lexington, and will remain open until the 18th of October, the anniversary of the surrender of Cornwallis, thus remaining open a period of six months. Of course the commission will properly celebrate any event of the Revolution occurring within the period of the exhibition. But such celebrations will be merely incidental to the good design, which is to show to all who may come to see, how abundantly God has blessed the land we inhabit, and what wonderful results have been accomplished by the people of the United States in the brief period of one centuries existence as a nation.

The plan of the Exhibition buildings is not yet determined on, save that there shall be an adequate space assigned to each State and Territory for the display of its own "arts, manufacturies, and products of the soil and mine," under the general control of the Commission, but looked to particulary by the commissioner from such State or Territory to occupy the space or not, as it pleases. We estimate that we shall have 10,000, 000 visitors at least, but a small proportion of whom will come from Virginia. The space assigned to Virginia, I have sufficient pride in the renown of my State to believe, will be visited by all. Shall it be empty or full—vacant or crowded with articles showing the immense mineral and agricultural wealth and resources of the State, which her press so justly boast need only developement to make her the equal in wealth of the great State Pennsylvania?

In conclusion, I state that two Legislatures of Virginia (the last by a vote approximating unanimity) have commended this proposed Centennial Exhibition to the people of the whole country as a means of restoring harmony, concord, peace, and good will, and to her own people as a most fitting opportunity to bring into her borders the rich capitalist, as well as the poorer immigrant, for whom we have been waiting so long. The exhibition is to be held anyway. No human power can arrest it now.

Virginia's presence or absence can make but little difference in the nnmber of dollars and strangers that will be "taken in" by Philadelphia shops of every kind. Philadelphia's "Radical Club (not Republican)" may continue to preach social equality and to pass resolutions denunciatory of the Centennial Commission, and classifying the exhibition as a "humbug and fraud;" but, nevertheless, I expect to see the negro there earning, on the outside, an honest dime *to pay his way inside* to see "a show" and receive a benefit which not one of this generation, whether white or black, will, in all human probability, live long enough to see or share again.

The *moral* I have been trying to inculcate is, that it is high time for the press of the South, and especially of Virginia, to cease "petty flings" at the Centennial Celebration and Exhibition because of either the actual or supposed meanness and degradation of some or all of the people of Philadelphia.

Respectfully,

W. W. WOOD,

United States Centennial Commissioner from Virginia.—

Restored Jerusalem.

The recent announcements are strikingly suggestive of the rapid advance in modern science, into the most distant and ancient seats of the world's civilization. A railway is now projected from Jaffa, on the coast of Palestine, to the holy though now desolate city of Jerusalem. In the streets of Jerusalem itself horse car tracks are to be laid, and ere long the ring of the conductor's voice may be heard in the very place where Solomon was wont to sweep by in all his glory. With more ready communication with the venerable centre of Christianity, renewed interest must be felt by Christian nations in the explorations that are at last revealed to us as such of the original city as yet remains, hid len beneath debris, later superstructures and modern buildings. About five years ago permission was granted to several Englishmen by the Sultan to enter into explorations of the foundations of the magnificent temple which Solomon reared without the aid of iron tools, on the very craggy summit of Mount Morriah; a fund to defray the expense of that noble work was raised with the usual generosity of the moneyed men of England, and now we are in possession of results which although partial, are yet valuable, and confirm at least the traditions which have lingered of the vast size and the massive masonry, the nobleness of the architecture, and the gorgeous adornments which the wise king reared to the glory of God above the walls of Kedron. The restoration of all of the old Temple, which Chaldean and Moslem have spared, seem likely to be fully accomplished under the energetic auspices of Captains Wilson and Warren, unless their financial resources give out—a contingency that is not at all probable, considering from whence they come, and the increasing interest with which it cannot fail to be regarded when the discoveries already made are appreciated.

The revelations already made of the walls, chambers, galleries and courts of Solomon's Temple, are not flattering to modern art, for it is safe to say that there is no nation on the face of the globe that could now rear so splendid a monument. The great pyramid is an architectual wonder and mystery; what architect in twenty centuries has been able to describe how it was built, or what archæologist when it was built? Yet in some respects, Solomon's Temple, wedged into the very crags at the foundations, is a greater triumph than the mighty pyramid of Cheops. The walls are formed of immense blocks of stone, and of these very walls there is a total height of more than four hundred feet, but little less than the apex of the pyramid; the area of the eastern face is double that of a side of the pyramid; and between the four walls of the Temple it was possible for 210,000 adult human beings to worship together at the same time. Coloseums and St. Peter's and amphitheatres and LaScalas are dwarfed to insignificance in the comparison. So vividly may the Temple be reconstructed in imagination by the data already published, that it requires no forcing of the mind to imagine Solomon seated in the midst, and the high priest sacrificing at the altar fires, the great men of the most dazzling of ornamental courts, gathering in shining raiment around the inner courts, and the multitude of ancient long-bearded Jews and Jewesses gathered in a human sea in the great quadrangle and galleries, humbling themselves in presence of the anointed monarch and the priests, and awe-struck by their propinquity to the mysterious Holy of Hollies. That a Moslem sovereign should permit the "Christian dogs" to thus reveal the most sacred relics of both religions, marks a singular and happy contrast with the days when the hostile armies warred about its very walls for the possession of Jerusalem.—*Boston Pilot.*

THE RAILROAD QUESTION.

We know of no valid reason why the people of the counties of Pasquotank, Camden, Perquimans and Chowan should not vote for the railroad subscriptions. In the first place they run no risk in voting favorably. If the road should not be built the bonds need not be paid, and if the road is built they are not payable until at the expiration of twenty years.

It is now well demonstrated that the tide of immigration follows railroads. The people from the North and the East won't go to a country that has no railroad facilities or communication. Here we have a territory unequalled anywhere in climate, variety of products and fertility of soil, and yet our population *is less than it was twenty years ago!* And why? Because the people are attracted to those points where railroads and the industries they create are built.

We must have a railroad. Every interest demands it. It will bring us people. It will bring us capital to build up Factories. It will develope our resources. It will enable us to cultivate and profitably raise the early vegetables and small fruits for which these Albemarle counties are so justly celebrated. It will make labor, and farming and all kinds of business more remunerative. It will give a new inspiration to all our industries and place us in close connection with the great commercial cities of the country.

Then let every man vote for the county subscription. Do not let the cry of "taxes" alarm any one, for they will not be burdensome. The road will not only help pay the interest,—nay will more than do it, besides bearing its proportionate share of all the other county expenses.

Nor should any be frightened by the charges of the anti-railroad men that the Bonds will be sacrificed and squandered, for in the first place their issue will be so guarded that the interest of the county will be fully protected, and in the second place arrangements are being made to dispose of them at *par* and in such a way as cannot fail to be entirely satisfactory to all the parties interested—the people, the holders and the company.

A MISSTATEMENT CORRECTED.

The few who oppose the county subscription to the Railroad—some of them at least—are under a missapprehension. Their representations that the Bonds are to be delivered at once *are not true.* The following are the conditions: When grading is commenced in Pasquotank county 10 per cent are to be delivered; and when half through the county 10 per cent additional, and when through the county 10 per cent more. When the road is graded through Camden county ten per cent more is to be delivered, and when the road bed is graded from Edenton to its Northern terminus in Virginia 10 per cent more. The ballance is to be delivered as follows: 25 per cent when the cross ties, bridges and iron are laid on the road bed, and the remaining 25 per cent when the first train of cars passes over the road.

Thus it will be seen that this matter is carefully guarded, as it should be. If the road is not built the bonds will not be delivered. The interests of the county will be carefully protected.

Prof. AGASSIZ has opened an Academy for the study of Natural History on a new plan—a school without books, the school of Nature where pupils are to learn by experiment and by direct handling and examination of the intrinsic characteristics of animal anatomy and physiology, on Perrikere Island, near New Bedford, Mass. The Island contains about a hundred acres and was given to the Professor by JOHN ANDERSON of New York for the purpose of founding a school of Natural History, including $50,000 in money to put up suitable buildings. The school was formally opened on the 8th. In his opening address the Professor said that Nature was to be the student's text book, and asked that they bring no other, as their appliances for study were to be those only which nature offers.

Senator MERRIMON delivered an address to the Literary Society of Wake Forest College at the recent Commencement. His theme appears to have been the Laws of Nature. A correspondent of the Wilmington *Star* criticises him by saying that he does not practice what he preaches, and asks the question: "Is it in accordance with Nature for an orator to speak over two hours to a tired audience?"

The Steamer City of Washington, from Liverpool to New York, was wrecked near Cape Sambro, about 80 miles from Halifax, on the 7th inst. The passengers and crew were fortunately saved. She was one of the oldest Steamers in the Inman service.

Government furnishes a postal card carries it to its destination and if not called for returns it to the writer for one cent. Now we don't see why it couldn't carry a sealed letter for a cent also, especially when it don't have to furnish the material for writing on. It would not cost certainly any more to carry a sealed letter of the same size and weight of a postal card than to carry a postal card.

While the Eastern and Middle States have been parched with a severe drowth, the West, especially Ohio, Indiana and Illinois, have been deluged with rains. These have injured the crops and destroyed millions of dollars worth of property. The tornadoes of wind, and sudden rising of creeks and rivers swept all before them.

The "Farmers Movement" has extended to this State. A number of local "Granges" have been put in operation, and on the 10th inst. a State Grange was organized at Raleigh. WM. S. BATTLE Esq. of Edgecombe was elected Master.

All over the country there is too much of a disposition to plan some scheme to get a living without rendering an equivalent in honorable labor.

To which is added the Lives and Labors of Eminent Christians and Martyrs, from the Crucifixion to the Reformation, and also a history of the Jews, from the earlest ages to the present time. A new and Improved edition, with notes By Rev. J. NEWTON BROWN, D. D., Editor of "Encyclopedia of Religious Knowledge."

We give the title of this work in full. It is comprehensive. Several other works entitled the "Life of Christ" have, within the past few years, been issued from the press; but none that has come under our observation is comparable to this renowned work by Fleetwood, revised and annotated by Dr. Brown. This work excels all others in the simplicity and perspicicuity of the style, the scriptual method and arrangement of the facts and incidents, and its strict adherence to the sacred narrative, avoiding all tradition, and descriptions borrowed from the imagination. The execution and typography are excellent, embelished with numerous costly steel engravings of the highest type of finish and conception. This excellent work is sold exclusively by subscription. B. CORRESPONDENCE

The United States Centennial Exhibition.

Hertford, N. C., July, 1873.

To the Editor of the North Carolinian:

I send you by this mail a communication from Col. W. W. Wood, the Centennial Commissioner from Va., in reply to some statements in the *"Despatch"* of Richmond. I think it might be well for you to republish some portions of Col. Wood's article, leaving you to judge of the matter. Col. Wood is a Conservative, but moderate in his views, a native Virginian, a member of the Virginia Legislature, and a gentleman of undoubted ability.

Whatever may be the rememberances of our people, and their feelings towards Northern men, the Centennial Anniversary of 1876 can be turned to most valuable account by the Southern States, if they will. We know tnat our resources are exceedingly varied in number and abundant in quantity. But the world does not know of them as we do, because we have never put ourselves to the trouble to advertise our advantages. Immigrants landing on our shores have heard of all the United States and Territories and there is not a single avenue to comfort and wealth that is not fully placarded to the people who come here from abroad to settle. Railroads stand ready to transport them with speed and cheaply, to the very recesses of the Rocky Mountains, and Westward they go, ignorant that within a day or two, they could find a land in every respect equal to the best and in many things superior to any other section of the country. If the South had agents and other means of advertising in the cities of Europe, and then had facilities to transport immigrants who wished to come, we too, would catch some of the swelling tide which overflows westward.

Tho Centennial Celebration offers to us the advantage of advertising our good things upon a larger scale than we shall ever have given us again.

It is well known that the capitalists of Europe are investing largely in this country. They have agents in every corner of the country examining and reporting upon what they see. The favorite investment is in lands, minerals and otherwise. There captilists or their agents, will be in Philadelphia, in 1876 is swarms, expecting that they will see in that place a panorama of our whole country. Now the Western and Pacific States are known all over the world. The South is not. Capitalists will naturally seek for our advertisements, from novelty at first. If our Legislatures are wise there is not a deposit of mineral ore, a forest of timber, a track of land arable or pasturage, a fishing privalege, or any other source of wealth, that will not be displayed in large letters in the Exhibition of 1876 at Philadelphia. The two parties, the buyer and the seller, will be face to face, and we may there lay the foundation of countless bargains which will bring wealth and improvement to our doors. Whoever loves the South should strive to make the Centennial Anniversary the greatest success the world has ever seen. The bigger the show, the more people that attend it, the more money that is poured into Philadelphia, (if that is to be considered at all,) the better for us. If we see proper not to be moved by the patriotic impulse which inspired our fathers in 1776; if we will still, when national topics are named, stand in a corner and pout, for the sake of common sense and utility, let us not be disturbed at the patriotic celebrations of others, but just go forward and gather the material advantages of the great Fair. Let us act the part of the quiet swine and for once get our share of the wash.

Rail Road Meeting in Chowan.

Pursuent to previous notice an enthusiastic meeting of the citizens of Chowan County was held in the Court House at Edenton on Saturday the 12th inst., to consider the general advantages and benefits to be gained by our people in an enterprising cooperation of Chowan County with the Counties of Perquimans, Pasquotank and Camden for the purpose of subscribing to the Stock of the Atlantic Coast Railway Company, in order to establish direct and quick communication by rail between the counties named and the city of Norfolk.

On motion of Major Henry A. Gilliam, Dr. Richard Dillard was invited to the chair and Messrs. Wm. D. Pruden, James J. Cannon and Wm. R. Haughton were requested to act as Secretaries.

Upon taking the Chair Dr. Dillard in a few practical and sterring words called the attention of the meeting to the importance of united and speedy action upon the Railroad question, in order that Chowan County might enjoy greater prosperity and increased commerce.

His remarks were greeted with merited applause, when Maj. H. A. Gilliam moved that Dr. Greenleaf explain the benefits, which the Atlantic Coast Railway Company offered to our people. The gentleman came forward and duly responded to the wishes of the meeting, making a brief, but full explanation of the method and plan for building the Railroad to Norfolk, and particularly stated in order to interest capitalists in the enterprise it was essential for the people living in the various counties along the line to manifest an interest in building the road, it being only necessary to show a desire for the improvement in order to bring it to our doors.

Judge C. C. Pool, Hon. C. L. Cobb, Col. W. F. Martin, W. H. Smith Esq., Maj. H. A. Gilliam and Augustus M. Moore Esq., made eloquent and appropriate speeches, calling upon the people of Chowan to join hand and heart in the new enterprise, to do all in their power by word and deed to build the road, by giving timely assistance in order that it may be speedily and finally completed.

With thanks to the Chairman and Secretaries, and a resolution requesting the Editor of the North Carolinian to publish the proceedings the meeting adjourned, after a most harmonious, enthusiastic and intelligent expression of sentiment, fully endorsing the action of the Town and County authorities in calling elections on the first Thursday in August next, to ascertain the voice of the people upon this great and important subject. Judging from the spirit manifested at this meeting we feel satisfied that Chowan will express an unanimous ballot in favor of the building of the railroad from Edenton to Norfolk under the auspices of the Atlantic Coast Railway Company

RICHARD DILLARD, Chairman.

The Wake Forrest College Endowment.

To the Editor of the North Carolinian:

With jealous regard for the cause of education generally, and especcially that education which looks to the moral as well as mental elevation of the youth of our land, we feel constrained to solicit a small space in your colums to bring its claims before the public. Already, most of our people have heard something of the work in which we, the Baptists of North Carolina, are at present engaged. We propose during the present year, to raise $100,000, towards the endowment of Wake Forrest College. So far, we have received the encouragement and commendation of friends—not Baptist—all over the State. Educators and lovers of letters of all denominations, and of no denomination, are making liberal contributions to this grand enterprize. Will not the friends of education in and around Elizabeth City favor us with expression of interest and encouragement? We are all interested; from the fountain head flow the little streams that water the plains. If we would increase the number of common schools and academies, let us enlarge our facilities for higher education. This, to some may seem to be quite illogical; but, be it remembered, the tendency of water is never up the stream. But, pardon me, Mr. Editor, what I wish to say is this: The ladies of the Baptist Church propose during the October term of the United States District Court, to hold a fair; and in view of the cause they represent, I would ask on their behalf the encouragement and patronage of the good people of Elizabeth City and surrounding country.

Respectfully,
J. F. TUTTLE.

Adjourned to meet 1st Monday in August next.

JNO. T. PRICE, Clerk.

Office County Commissioners,
Pasquotank County,
July 14th, 1873.

From a call from the chairman the Commissioners met to-day. Present C. W. Smith, Chm'n, James S. Wilcox, Edmund Dailey, Abram Morris and Emanuel Davis.

Benjamin C. Brothers tendered his resignation as Treasurer of this County, and the same was received and ordered to be placed upon the minutes of this Board, and on motion the Board proceeded to ballot for the election of an other Treasurer. Thomas P. Wilcox and Thomas J. Murden was put in nomination and were voted for as follows: for Wilcox—Emanuel Davis, Abram Morris and James S. Wilcox; for Murden—Edmond Daily and C. W. Smith; Wilcox receiving a majority of the Board was pronounced by the Chairman elected.

Ordered that the Clerk notify Thomas P. Wilcox that he has been elected Treasurer of this (Pasquotank) county, and that he is required to come forward on the first Monday in August and give two bonds, one Ten Thousand Dollars for receiving and discharging the "General County Fund" and one for Six Thousand Dollars for receiving the School Fund. Adjourned.

JOHN T. PRICE, Clerk.

An Important Matter—Lime Deleterious to Health.

It has been indisputably settled that cleanliness in the largest sense, free air, pure water and wholesome food are the essential conditions of immunity from epidemic disease. It is therefore imperative that the earnest attention and efforts of our citizens be given to this important matter, and it is the duty of every one to inform himself upon the subject. It has generalty been considered that lime is an excellent disinfectant and its use has universally been adopted.

A correspondent of the *Courier Journal*, in a communication regretting that such is the case, says:

In spite of popular opinion in its favor, probabty no substance could be suggested less adapted to the end in view. Not only has lime, in a caustic state, no disinfecting properties, but, used in the way recomended, it would be likely to become exceedly deleterious. Its effect upon decaying vegetables and animal matter, as every chemist knows, is to hasten decomposition, to liberate amonical and other noxious gases, and if sprinkled along the gutters and alleys of the city could hardly fail to greatly increase the evil it was designed to prevent. Indeed, not a few unfortunate experiments in this and other cities attest the fearful harm that may be done by its indiscriminate use.

Probably the most efficient, cheap disinfectant for outdoor and general use is to be found in the ordinary crude copperas or protosulphate of iron. It can be had in quantity at about two and a half or three cents a pound, and if made use of freely in the gutters, alleys and vaults of the city would do more to arrest the germs of disease than the same amount of expenditure in any other form.

Probably the most effective arrangement would be for the city authorities to send water carts, filled with a moderate strong solution of copperas, to sprinkle the gutters and filthy alleys of the city. If this were repeated at intervals of a week or so, and proper attention were given to abating nuisances, disinfecting vaults and cleaning up things generally, we might reasonably expect immunity the coming summer from cholera and every form of epidemic. The tendency of modern investigation is entirely in the direction of the absolute preventability of most forms of zymotic disease. The past decade has given us the solution itself, of the mysteries of infection, contagion and malarial poisoning, and we are probably even upon the mere threshold of important pathological discoveries.

PERRY DAVIS'

PAIN-KILLER.

HAS been tested in every variety of climate, and by almost every nation known to Americans. It is the constant companion and nestimable friend of the missionionary and the traveler on the sea or land, and no one should travel on our *Lakes or Rivers, without it.*

Since the PAIN-KILLER was first introduced, and met with such extensive sale, many *Liniments, Reliefs, Panaceas,* and other *Remedies* have been offered to the public, but not one of them has attained the truly *enviable standing* of the PAIN-KILLER.

WHY IS THIS SO?

It is because DAVIS' PAIN-KILLER is what it claims to be a Reliever of Pain.

ITS MERITS ARE UNSURPASSED.

If you are suffering from INTERNAL PAIN, *Twenty to Thirty Drops* in a Little Water will almost instantly cure you. There is nothing to equal it for

Colic, Cramps, Spasms, Heart-burn, Diarrhea, Dysentry, Flux, Wind in the Bowels, Sour Stomache, Dyspepsia, Sick Headache, &c.

In sections of the country where

FEVER AND AGUE

prevails, there is no remedy held in greater esteem. Persons traveling should keep it by them. A few drops, in water, will prevent sickness or bowl troubles from change of water. From foreign countries the calls for PAIN-KILLER are great. It is found to

CURE CHOLERA WHEN ALL OTHER REMEDIES FAIL.

When used Externally, as a Liniment, nothing gives quicker ease in *Burns' Cuts, Bruises, Sprains, Stings from Insects,* and *Scalds.* It removes the fire, and the wound heals like ordinary sores. Those suffering with RHEUMATISM, GOUT, or NEURALGA, if not a positive cure, they find the *Pain-Killer* gives them relief when no other remedy will.

IT GIVES INSTANT RELIEF FROM ACHING TEETH.

Every House-Keeper should keep it at hand, and apply it on the first attack of any Pain. It will give satisfactory relief, and save hours of suffering.

W. F. SANDERSON, Clerk.

July 16th, 1873.-3t.

TO THE VOTERS OF CHOWAN COUNTY.

On behalf of the Atlantic Coast Railway Company and citizens of Chowan County Maj. H. A. Gilliam submitted to the Board a proposition that the County of Chowan subscribe for One Hundred Shares of Stock in said Road, whereon the following order was made, viz:

It is ordered by the vote of a majority of the Commissioners that the Chairman of this Board subscribe for One Hundred Shares of the Stock of the Atlantic Coast Railway Company subject to the provision hereinafter contained: to be paid for in Bonds of the County of the denomination of Five Hundred Dollars payable twenty years from date, with coupons attached bearing interest at the rate of six per centum per annum, the interest payable at the office of the County Treasurer on the 1st day of January of each year, the said Bonds to be signed by the Chairman of this Board and countersigned by the Register of Deeds of the County.

It is further ordered, That the question whether the said subscription shall be made or not, be submitted to the qualified voters of Chowan County at an election, which shall be held at the several following precincts of said County on the First Thursday of August next, and that at the said election those who favor the said subscription shall vote a ballot on which shall be written or printed "Subscription" and those who oppose the said subscription shall vote a ballot on which is written or printed "No Subscription;" and it is ordered that the following persons be appointed Inspectors and Poll-Keepers at the said election, viz: To that at Edenton, F. F. White. At Rocky Hock, Wm. J. Jones. At Centre Hill, Jos. J. Cannon. At Ward's Store, Wm. D. Ward, and that the Sheriff serve upon them notice of their appointment and that he give ten days notice, according to law, of the time and purpose of holding the said election.

It is further ordered, that in case a majority of the votes cast at the said election shall be for the said subscription, that the Chairman of this Board issue the said Bonds as above provided to meet said subscription as follows: Ten per cent of said subscription when the grading of the line of said Railroad shall have been completed through the County of Pasquotank.

Ten per cent additional when the grading of the line shall have been completed through the County of Perquimans.

Ten per cent additional when the grading shall have been completed upon one-half the line through the County of Chowan.

Ten per cent additional when the grading of the line through Chowan is completed.

Ten per cent additional when the grading of the entire line from Norfolk to Edenton is completed.

Twenty-five per cent when the bridges, way, and water station and warehouses and wharves are completed and the iron laid upon the track from Edenton to Norfolk.

And Twenty-five per cent, the balance, when the road is equippedwith rolling stock and the trains for trafic and passengers are running.

Provided that if at the said election a majority of the ballots cast are against the said subscription, then this order for the subscription for the said stock shall be void and of no force or effect.

Let notice be issued to the Poll-keepers and. copies of this order be forwarded to the NORTH CAROLINIAN at Elizabeth City to be published

On motion the Board adjourned.

[Signed.] JAMES O. CHESHIRE, Clerk.

We call attention to the timely article of Judge ALBERTSON on the "Centennial Exhibition." Let it be read by all.

We call the attention of epicures to the article on our last page entitled "Cook Treatment of Turkeys." Try it.

Those who enjoy the pleasures of "hook and line" are now having a good time at Nags Head. The Sound is full of excellent Fish.

In most parts of the country the Cotton and Corn are looking well. In a few places, where the land is low, the wet weather has injured the crops.

There will be a Railroad meeting in the Court House, at this place, on Saturday next at 3 o'clock P. M. Let everybody attend and hear the question discussed.

A wag who was disgusted with the foolish ways of a city swell, remarked if according to scripture, the meek are to inherit the earth, that fellow would never have much real estate.

The Money Order business at the Post Office here is increasing. The amount of orders issued from April 1st to June 20th was $15,169,93. The number of Registered Letters were 74. The average weekly sale of stamps amount to $200.

The Town Commissioners of Edenton have passed an order to submit the question of subscribing one hundred shares of the stock of the Atlantic Coast Railway Company to the people. We learn that it will be carried by a decided vote.

Rev. W. G. STARR, President of the Murfreesboro' Female Institute, delivered an able sermon in the M. E. Church at this place last night. His theme was the Influence and Uses of the Moral Power in Man.

The Nags Head season has opened auspiciously and the New Hotel is being filled up. We hear its management spoken of in the very highest terms. The present indications are that this celebrated Watering place and Summer Resort will have a larger throng of visitors than ever before.

The railroad meetings announced for Pasquotank and Camden county will be addressed by Col. W. F. MARTIN, Hon. JOHN CANN and W. H. SMITH, Esq. We authorize us to invite the opponents of the County subscriptions to meet them at the times and places announced, and fully and fairly discuss the question before the people.

Our Plymouth correspondent informs us of the death of HENRY DOWNING which occurred at Goldsboro on 9th inst. He had left but a few days previous to be treated for Cancer of the case was supposed to be progressing favorably; but he was suddenly attacked with erysipilas in the face and head which speedily terminated his life. He was in his 72nd year of age.

The people in these five counties should remember: 1st that the local subscriptions to the railroad are not to be paid in advance, and 2ndly that when the road will not be exempted, as the roads and public improvements have been, from taxation. It will be levied in each county like all other property. And thus instead of proving a burden it will soon be an important help to all in bearing the county expenses.

The spiteful law of the last Congress against the press is now in operation. Under its operation we have been obliged to revise our exchange list. We dislike to cut the acquaintance of old friends, but shall do so sparingly. Those papers which do not hereafter receive the NORTH CAROLINIAN will understand that the exchange is stopped; those to whom it contiones to be sent will please take the hint that we should like to keep up the exchange, each paying postage.

Quite an enthusiastic Railroad meeting was held at Edenton on Saturday. Addresses were made by AUG. MOORE, Esq. Hon. C. L. COBB, Dr. W. GREENLEAF, Hon. C. C. POOL, Col. H. SMITH Esq., Col. W. F. MARTIN and Maj. H. A. GILLIAM. Edenton is right on the question and so are the people of Chowan. Both the Town and County Commissioners have taken the proper action to submit the subscription question to the people. It will be carried by a decided majority.

BENJAMIN C. BROTHERS having resigned the office of County Treasurer, THOS. P. WILCOX has been elected to fill the vacancy.

We are glad to learn that the action of the Commissioners in the several counties on the railroad subscription question is so generally approved by the people. And we find that the more the question is investigated and discussed the better it is understood and the more popular it is becoming. We believe it will be carried by a decided majority in each county. It is not a political question, but is one in which all the friends of improvement and progress can cooperate and work together.

More attention must be paid to improving our system of public Free Schools. It should be so perfected that *all* the people—the poor as well as the more able—can have a chance to give schooling to their children. Until this is done we as a people, as a State, are sustaining incalculable loss. Unless we do more toward the intellectual training of those who are soon to become the voters, the witnesses, the jurymen, the legislators, aye, the *governing power* by which the destinies of our State is to be controlled, we may calculate the evil effects that must follow. We hold that this matter cannot safely be treated with indifference.

In these days railroads are not built where people do not want them, and where no local aid is given. Usually a very large amount in the latter is demanded. The Atlantic Coast Railway Company, having looked over the ground and becoming convinced that a judiciously constructed and properly managed road through our country would pay, come to us and make a liberal offer. They tell us a Narrow Guage road will fully meet our needs, and, as its construction and management will be much less than a broad guage road, they do not demand a subscription that will burden our people. They have fixed the amount for each county at the lowest possible figure. If this is met—if the amount asked for is subscribed they pledge themselves to build the road *and to do so at once*. If it is not subscribed; if the people will not do this much to help themselves, the enterprize will be abandoned. It is an old adage that "the Gods help those who help themselves." We are now in a position, if we show the right spirit and do the needful thing to improve our condition, where there are those ready and willing to come and help us. Let us be wise and ratify the action of the county Commissioners at the ballot box. Let us all vote for the railroad subscriptions.

Thursday last we spent at Belvidere. In the morning we attended Friend's meeting. Their house for worship is one of the largest in the State, is neatly finished and is located in a beautiful grove. Rightly understood the solemn stillness of a Quaker meeting is full of instruction. The foolishness of too much preaching may be realized and the great lesson, too often forgotten, that God's silence is more impressive than man's talk may be learned. In the afternoon we visited and addressed the Teacher's Institute now in session. It is conducted by Prof. W. A. SYMMS, Principal of the Belvidere Academy. Quite a number of Teachers are in attendance and all appear to be imbued with the true spirit—that of specially preparing and qualifying themselves for the responsible duties of their profession. The drills are thorough and the exercises are practical. They are just what our Teachers need. Every man or woman in the whole District who expects to go into the school room as Teachers the coming Fall or Winter ought to spend a week or more at this Institute. By the way, the friends of Education at Belvidere deserve great credit for this pioneer movement in trying to give us better Teachers. It is one of the outgrowths of their excellent Academy which is noted as the best school in Eastern Carolina. It *is* a good school, and no one can visit Belvidere and spend any time mingling among the people without feeling its influence in their intelligence, refinement and culture. Indeed the neighborhood, the society and the people reminded us so much of Millville, Pa., where we so pleasantly spent ten years of our professional life that we felt at home and among friends. We feel very much inclined to accept the kind invitation to visit them again.

We see that PROCTER & GAMBLE'S EXTRA OLIVE SOAP is becoming very popular in our city, its quality we know is superior, and being nicely perfumed we are not surprised that consumers prefer it and that it has a large sale.

A Nashville young lady renders wretched the existence of the man who adores her by referring to him as her "scapegoat" her "decoy duck" her "lightning rod" etc. Notwithstanding the fact that these pet names are spoken in tones of endearment and undying affection, they do not satisfy the longings of his nature, and he at all times experiences a feeling of lonliness and desolation really distressing.

The oldest house in North Leverett, Mass., has just been taken down. It was built by Capt. Sparrow in 1748—125 years ago. Many of the timbers were found perfectly sound. It was for many years the residence of Major Richard Montague, of Revolutionary fame, and one of Ethan Allen's assistants in the taking of Fort Ticonderoga, and subsequently, for many years, the headquarters of the few Baptists in those parts, then suffering under the intolerance of the unjust religious laws.

MEDICINAL POISONS ON THE WANE.—Three miracles took no mercury, no bismuth, no lodine, no bromide of potassium, no strychnia, no quinine. Happy old gentlemen! they did not even know of the existence of those "specifics," and yet they lived until it seemed as if Death had forgotten them. Their medicines were herbs and roots. They have left this fact on record, and the world seems to be now taking note of it and returning to the first principles of medication. Hostetter's Stomach Bitters, the purest and most efficacious vegetable restorative of the day, is also the most popular. Thousands of persons who only a few years ago believed implicitly in all the poisons that figure in the pharmacopeia, now pronounce this palatable tonic and alternative an all-sufficient remedy for dyspepsia, nervous debility, constipation, bilious complaints, headache, intermittent fevers, and all the ordinary disturbances of the stomach, the liver, the discharging organs and the brain. The time is not far distant when most of the powerful and virulent drugs now so recklessly administered by practitioners of the "heroic" school, in case that might be easily controled by milder treatment, will be utterly discarded by all philosophical physicians. As it is the thinking public who are generally ahead of the professionals, have already put the dangerous preparation aside and adopted Hostetter's Bitters in their stead as a safe and excellent household medicine, adapted to almost every ailment except the organic and deadly contagious diseases. For more than twenty years this famous restorative and preventive has been annually strengthening its hold upon the public confidence, and it now takes the lead of every advertised medicine manufactured in this country.

Beware of Counterfeits!

JOB MOSES' SIR JAMES CLARKE'S FEMALE PILLS

Are extensively COUNTERFEITED. *Dishonest Druggists endeavor to sell the counterfeits to the unwary.* The genuine *are sold here only, under the name of* Job Moses *on each package. All others are counterfeits.* The GENUINE Pills are unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate and correct all suppression of the menses when caused by cold, inflamation, or disease. In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, they will effect a cure when all other means have failed, and although very powerful, contain nothing injurious to the most delicate constitution.

Circular in English German and French around each bottle gives full direction and advice.

The GENUINE Pills are sold at most drug stores, but if your druggist cannot supply them HE WILL do not be persuaded to accept any counterfeit or bogus pill he may send you. One Dollar to this date, Job Moses, 18 Cortlandt Street, New York, with name of nearest express office at which you will call for the package, and a bottle of the GENUINE will be securely and safely packed in plain wrappers will be sent by return express.

MISCELLANEOUS.

FOUTZ
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, transforms the miserable skeleton into a fine looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Raising Horses.

Horse breeding is a branch of farming which demands knowledge and close attention. To conduct it profitably, a farmer must know what kind brings the highest prices in the market, what are the causes of such prices, and how those causes will be likely to affect the market in the future. Particular attention should also be given to the best and most economical system of stabling, feeding and training, so that by lessening the cost of production, the profits may be increased. And beyond all, great care should be taken that only the very best mares should be used. The practice among many farmers of using worn-out, broken-down and blemished mares for breeding cannot be too strongly condemned.

At present there is a great, and in all likelihood there will be, a continuous demand for heavy draught horses consequent on the large and rapidly increasing traffic of the principal towns, and it therefore behooves our farmers to give special attention to this important fact.

Thanks to the well directed energy and discriminating skill of many of our importing agriculturists, we have heavy draught stallions that cannot fail to exercise a marvellous influence on the character of the rising stock of the country, and we feel persuaded that our farmers generally will heartily support the profitable employment of those superior animals in the various localities to which they are introduced.

Self interest itself should strongly support such a course, for our American friends are continually scouring the country in search of first class draught animals, at prices ranging from two hundred and fifty to four and even five hundred dollars apiece. Besides, in most of our older farming districts deeper ploughing has become an inevitable necessity, and the light stamp of horses hitherto predominating throughout the country, will prove very unsuitable for the purpose, and a heavier stamp of animals require to be substituted, a substitution that will be more generally acquiesced in, in consequence of the rapid extension of railways and the consequent diminution of long distances that farmers hitherto have been compelled to travel to market.

In choosing mares to breed from, the farmer should be careful to aim at perfection of style, constitution, and freedom from blemishes, and if he has no good mares of his own, will find himself amply repaid by purchasing one which combines these good qualities in as great a degree as possible.

Whilst thus advocating the claims of the heavy draught horse, we must not be understood as deprecating the production of either blood or carriage horses. In their respective classes, and for special purposes, these animals are just as valuable as their neighbors of the heavy draught breed are in theirs. But the exigencies of the times demand an increased number of the latter stamp, and we feel no hesitation in recommending the great bulk of farmers to give special minding, care and attention to the breeding of heavy draught animals, whether for the purpose of the farm or for disposal to either home or foreign buyers.—*Canada Farmer.*

A Heroic Treatment of Turkeys.

One of the most agreeable entertainments of an epicurean kind which is given at Washington is that of Dr. Ninian Pinckney, who stands second on the list of Medical Directors, and is the nephew of William Pinckney, and brother of Bishop Pinckney. Dr. Pinckney's quarters are at the Washington Navy-Yard, and he is celebrated for feeding turkeys on English walnuts—a administered whole, shell and all, without cracking. A few weeks ago, I had the pleasure of attending a dinner given by this hospitable epicurne to Pay-Director Cunningham. A turkey reposed in the center of the table, of remarkable size, and of a flavor not equaled by the most delicate capon. Before we put the knife into this dish for Dives, another turkey was brought up to the door, and the process of feeding him was achieved. Fourteen full, large walnuts, whole, were put in the wondering fowl's bill, and slipped down the gullet by the fingers, outside. As the first walnut went down, the turkey looked up with one eye, in a baffled sort of way, as if wondering whether he was assisting at a comedy or going to execution. At the third walnut, he turned up both his eyes, as if now assured that it was not the intention to kill him by starvation. At the fifth walnut his inquisitiveness was unbounded, and he wore the look of a man who had been reading a thrilling story in *The Ledger*, and had suddenly bumped up upon the words, "To be continued in our next." Continued it was; and after the seventh walnut, Sir Turkey gave up the conundrum, closed his eyes resignedly, and when the fourteenth walnut had slipped down his gullet and they were all rattled by the hand, so as to produce from the bird's interior a sound as of a meandanizing joo going on there, his expression was plainly to be read, "Gentlemen, you know what this is for, and I presume that your consideration for myself will enable me to reflect upon the performance with the eyes of faith." It takes about three weeks to fatten a turkey in this way, for the animal, unlike the mills of the gods, grinds exceedingly small, but very fast. He undergoes considerable digestive wakefulness, but the secretions come to his rescue; the shells are melted down, and walnuts are assiliated, so that he matures in a fractional part of the life he had been destined to. It seems that this trick had been descovered on the way around Cape Horn on a certain naval vessel which contained a great many turkeys, and nothing for them to eat. A humorous officer said that sooner than see his turkeys starve, he, would feed them on the table-desert. A few animals died, but the majority survived, and proved to be palatable beyond all previous experience. I mention this matter for the edification of your gourmands in the West, who want to know what a turkey is capable of. Senator Anthony was delighted both with the docility and the delicacy of the respective birds of freedom which had been brought before us. The experiment made with turkeys are said to demonstrate the fact that fourteen walnuts is the limit which a bird can stand, and that less than eight will not produce the flavor attainable.—*Prairie Farmer.*

The Cabbage Fly.

All those who raise cabbage or cauliflower plants in open ground in the Spring are troubled more or less by the black fly. They usually attack the young plants when they are just coming through the surface, and destroy them at an astonishing rate. An excellent remedy, and one that is certain to kill off these pests if applied in time, is to steep some tobacco-stems—say eight or ten pounds, that will cost three cents a pound—in six or eight gallons of water. Add to this two or three quarts of soft soap and some urine. When the flies make their first appearance on the plants take a half a pailful of this solution, diluted with an equal quantity of water, and syringe the plants early in the morning, while the dew is still on them. Then dust them over with some air-slake lime, or a little flour of bone, soon after watering. One such application usually answers, but two will surely save the plants. Scotch snuff is often recommended for this purpose, but a heavy dew or rain washes off the snuff from the leaves, and the flies will attack them again. With the tobacco water, the soft soap makes it otherwise, and it strikes to the leaves for several days.—*A Market Gardner.*

MANHOOD: HOW LOST HOW RESTORED.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (without medicine) of Spermatorrhœa or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical incapacity, Impediments to Marriage, etc; also, Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cent. The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, *postpaid*, on receipt of six cents, or two post stamps.

GEO. D. POOL'S COLUMN.

DESCRIPTIVE CATALOGUE.

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,

ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalists and emigrants, as this section of North Carolina. In longevity and healthfulness, it will compare favorably with any where; and in easy and cheap transportation of products to market, in pleasantness of climate, in the sociability of the people, in great fertility, and durability of soil, no section can equal it.

A railroad will soon be built to Weldon, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing, farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A farm of 700 acres in Pasquotank County 10 miles from town, with fine two story dwelling, large barn, kitchen and other outhouses; as also, two other dwellings, barns and other houses at different points on the farm. This farm is all cleared but 150 acres, is free from swamps and other waste land, and is well adapted to raising corn, wheat, cotton, oats, &c. The price is 14,000 in easy payments.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balance in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

A valuable vacant lot in the town of E. City containing a half square, on the principal street in the town immediately opposite Court House quare. Has an iron fence in front, fine shrubbery, and is near the large new Hotel justerected, Price $2,000 in easy payments.

Also two fine farms in Pasquotauk county, 10 miles from E. City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Three farms—one of 100 acres, one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.

BANKRUPTCY.

THE FIFTY PER CENT. CLAUSE.

As there seems to be a misunderstanding in regard to the effect of the provision of the Bankrupt Act, commonly called the 50 per cent. clause, we publish the following extracts from the Act:

The second clause of the thirty-third section as amended by the Act of July 27, 1868, provides "that no discharge shall be granted to a debtor whose assets *shall not be equal* to fifty per centum of the *claims proved against* his estate upon which he *shall be liable as the principal debtor*, unless the assent in writing of a majority in number and value of his creditors to whom *he shall have become liable as principal debtor*, and who *shall have proved their claims*, filed in the case at or before the time of hearing the application for discharge.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled—that the provision of the second clause of the thirty-third section of said act as amended by the first section of this act in amendment thereof, approved July 27th, 1868, shall not apply to those debts from which the bankrupt seeks a discharge which were contracted prior to January 1st, 1869.

The true meaning is not that a bankrupt must be able to *pay* fifty per cent or any debts, before he can obtain a discharge, as many believe; but that his estate, in the hand of his assignee, at the time of the discharge, must be *equal, to fifty per cent.* of the amount of the debts.

1. That he owes as *principal;*

2. That have been *proved* against his estate in bankruptcy; and

3. That he has contracted since the 27th of December, 1868.

Or, if a majority in number and value of those who have proved their debts, to whom the bankrupt is indebted as principal, on debts contracted subsequent to Dec. 31, 1868, consent in writing to the discharge—such bankrupt may be discharged to cover from all his debts.

If a debtor, owing three thousand dollars of principal, twenty-two hundred of which indebtedness was contracted prior to January 1, 1869, and five hundred subsequent to that time, files his petition in bankruptcy, and all his creditors prove against him, and there are no assets in the hands of the assignee, the petitioner will be entitled to a discharge; but it will be a bar only to the debts contracted prior to January 1, 1869.—If no creditors prove, the discharge will be good against all debts, whether contracted before or after January 1869.

The practical effect in bankruptcy cases generally is, that creditors fail to prove their debts, finding it ordinarily unprofitable. They have had, in a large majority of instances, heretofore the trouble and expense of making proofs without receiving any return. The 50 per cent. bugbear, therefore when viewed in the light of the law and common-sense, disappears.

EXEMPTIONS IN BANKRUPTCY.

The exemptions under the 14th section of the Bankrupt Act are as follows:

1. Household and Kitchen furniture to an amount not exceeding $500.00

2. Wearing apparel of Bankrupt and family.

3. Uniform, &c., if he has been a soldier in the United States Army.

4. Personal property of the value of $500.00 to be selected by the Bankrupt.

5. A Homestead and the dwelling and buildings used therewith, not exceeding in value the sum of $1000.00; or in lieu thereof, any lot in any city, town or village not exceeding in value the sum of $1000.000.

6. The reversionary interest in the Homestead lands.

In laying off the Exemptions in Counties, Districts, the Assignees are ordered to accept and abide by, any assignment of a homestead which has been made by a Sheriff under the State laws; or which has been assigned upon the application of a debtor in accordance with the laws of North Carolina. Where no such assignment of homestead has been made, the assignee will proceed to set apart such homestead, and make the other exemptions according to the rules of the bankrupt Court.

The report of such exemptions when made by the assignee can be excepted to by the bankrupt or by any creditor, within twenty days after the allotment of such exempt property.

EFFECT OF THE DISCHARGE IN BANKRUPTCY UPON JUDGMENT

It is the opinion of many of our best lawyers that the discharge in bankruptcy, discharges judgment debts existing against the bankrupt at the time of filing his petition, and that therefore the liens existing by virtue of such judgments, upon homesteads are wiped out and cannot afterwards be enforced. In fact that the practical effect of the discharge is to leave a man, whose homestead was encumbered by judgments, free from all his debts, of every nature, and the owner in fee simple of such homestead.

Again many lawyers, equally prominent in the profession, are of opinion that such will not be the effect of the discharge. That the homestead, will still be liable under the judgments and that when it determines under the State laws, the judgment creditor may enforce his lien and collect his debts.

To place this matter beyond doubt, the following rule has been adopted for the benefit petitioners who are not willing to run any risk.

That the petitioning debtor may file his petition in the District Court, addressed to Hon. Geo. W. Brooks, asking that the judgment creditor, or creditors, show cause why the liens existing in pursuance of their judgments should not be adjusted by said court, and their precise value ascertain and fixed, and the amount when so ascertained, to be made the true value of such lien or liens by the decree or judgment of said District Court, in bankruptcy.

The right to adjust such liens, is exercised in pursuance of Sec. 1. of the Bankrupt Act.

FILING PETITIONS AND SCHEDULES.

Petitions and Schedules must be in duplicate. Petitioner should sign each sheet, except only to schedules. It is not necessary to file sheets of schedules that are not used. All papers in bankruptcy must be sworn to before a Register in Bankruptcy, U. S. Commissioner, or Clerk of the court.

The following deposit to secure costs is required at time of filing Petition. Register $5; Clerk $20, Messenger $5. Bankruptcy blanks can be had of M. B. Culpepper, Elizabeth City, prepared in sets for Two Dollars per set. The original papers in all such cases should be sent to T. W. Costen, Register, Elizabeth City, N. C.
